**IFP GROUP**  
Industry Focused Products

*IFP Group are a New Zealand owned and operated supplier of premium containment solutions. We manufacture, import and wholesale both New Zealand made and internationally sourced products.*

## WHOLESALE IMPORTS

We have a reputation of sourcing and supplying a wide range of high quality products from global contacts for more than a decade. We've created a trusted network of long-term business trading partners who afford us excellent service.

## PRODUCTS MADE IN NZ

Since 1986 IFP Group has manufactured here in New Zealand and still does today. There is product within this catalogue made by us or other New Zealand manufactures. If you have an idea for a product we are keen to help.

## IN-MOULD LABELLING

IFP Group offers the latest labelling technology with our In-mould labelling service of food ingredient pails. This process allows for custom branding of top-quality food-grade containers for our customers.

*Place an order online, visit our showroom or simply get in touch today.*

# IN-MOULD LABELLING

## Custom Labelling - Our Process

Mix functional food packaging with the flair of great looking marketing

### 1 PRODUCT ASSESSMENT

### 2 LABEL DESIGN

### 3 MANUFACTURING

### 4 IN-MOULD LABELLING

### 5 FINISHED PRODUCT

- Make your product stand out in front of the competitors with In Mould Labelling (IML). We can help you bring your design to life with this seamless, cost effective process.
- We manufacture top quality food grade containers for high volume and boutique customers.
- We start by assessing your product and what container best suits your requirements. The pails are then manufactured and your design is applied as part of this process. The artwork can wrap around the entire container and lid for an eye catching high finished product.

# CUSTOM MANUFACTURING

Bring your product to life

Turn your design into a commercial success.

## STEP 1

### Product assessment, Quote and Design

*We design a custom product  
with prototypes to fit your needs*

## STEP 2

### Machine tooling process

*We create the tooling required  
to reproduce your custom item*

## STEP 3

### Product manufacturing

*We produce a bespoke plastic  
product that works for you*

Our injection moulding capabilities range from 100 Ton up to 850 Ton.

Our long history in custom manufacturing coupled with our latest robotics technology mean we produce high quality, competitive products.

We offer design, development and tooling project management. Our off shore tooling partners bring world competitive pricing to our NZ consumers

## RAPID RANGE

Exclusive to IFP Group, the Rapid Range has been developed to include many popular options of plastic crates. It incorporates food grade and recycled product lines so is perfect for a range of industries including food processors and manufacturers along with warehousing and distribution.

The Rapid Range offer you quality products at an affordable price.

## ENVIRO RANGE

Enviro Crates are made from 100% recycled material and offer a storage solution that is heavy duty and multi purposed. The Enviro Crate range offers several different sized crates with optional lids.

Ideal for use in warehousing and logistics, mechanical and engineering workshops or for tidying up your storage area. These bins are recyclable and available in black only.

### NEW ZEALAND MADE

IFP Group's own products are proudly manufactured in New Zealand at our factory in Penrose, Auckland.

### ENVIRONMENTAL CHOICE AUSTRALIA

The Enviro Crate range is environmental choice certified as it is made of 100% recycled plastic and is recyclable.

Place an order online, visit our showroom or simply get in touch today.

<b>Customisation</b>	Colours available
<b>MOQ</b>	Applies for custom colours

Security Crates provide an excellent option for archiving and transportation when you want your products to arrive free from tampering and theft. They feature hinged lids with reinforced hinges, so the lid won't be separated from the crate. They are lockable with cable ties or tamper evident snap lock pins. Reinforced ribs on the sidewall reduce flex and increase the load capacity the crate can withstand.

- Made from durable Polypropylene
- Stack when full & nest when empty for space savings
- Lockable
- Lids are attached, cannot get lost
- Skate option available

# SKATES, DOLLIES & TROLLEYS

Moving product safely to reduce heavy lifting is an important part of today's work place. IFP Group offers a range of skates to fit some of our industrial bins and crates. The range has steel and plastic skate options for the different types of environments that they may be required to work in.

- A range to suit stack n nest crates, bread crates and square bins
- Galvanised and stainless steel options available
- Excellent for manoeuvring heavy loads safely and easily

# LAMSON STORAGE SYSTEM

<b>Material</b>	PP
<b>Sizes</b>	2, 3Z, 3ZD, 4, 5, 6, and accessories
<b>Colours</b>	Blue, Green, Red, Yellow
<b>Storage</b>	Stackable.
<b>Use</b>	Storage and organisation
<b>Industry</b>	Warehouse, Construction, Trade, Retail, Industrial
<b>Customisation</b>	Colours available
<b>MOQ</b>	Applies for custom colours

IFP Groups extensive range of storage bins and louvered panels are perfect for your workshop, warehouse, or factory. The open-front Lamson bins simplifies storing small to large parts. Our range of wall-mounted and free-standing louvered panels are specifically designed to hold the Lamson bins in place, cleverly maximising storage space without the need for built-in shelving.

- Available in a range of sizes and colours
- Strong & durable, won't rust & are UV resistant
- Louvered panels available for complete workshop set up
- System can be added to as your storage needs grow
